

9 Tips to Prepare Your Car for

WINTER

- 1 Check fluid levels (*deicing wiper fluid, antifreeze*)
- 2 Change motor oil
- 3 Check brake pads (*have replaced if needed*)
- 4 Install **Goodyear Assurance WeatherReady Tires**
- 5 Check spare tire (*should be fully inflated*)
- 6 Confirm that you have a jack & wrench and that both are in working order
- 7 Confirm that you have jumper cables
- 8 Confirm that you have a windshield scraper & snow brush
- 9 Wash & Wax your car to help protect it from winter road treatments (*salt and other chemicals*)
